

RESSOURCES

Our resources are our future and our most precious possession. That's why we're committed to doing everything we can to preserve them.

Our French know-how and the heritage of our businesses. Our human resources, to support them throughout their careers. To promote their well-being and safety on a daily basis.

Favouring the selection of natural, recycled and recyclable resources. Located as close as possible to our production sites. To promote a sustainable, local and inclusive economy.

The alchemy of these resources enables us to offer a healthy sleep for the body and the environment. Without losing sight of our priority: providing lasting comfort.

Taking the time to recharge your batteries means getting back to basics. Taking a step back from the world around us and taking concrete action for a responsible future.
